Central Saanich Grant-In-Aid Evaluation Guidelines (1997)

The Purpose of Grant-In-Aid Dispersal's

“That Council recognizes there are organizations and groups in our community who provide worthwhile programs and services to our residents. It is in the best interest of the community to ensure that these services continue to be provided. Given the lack of resource funding for some organizations and projects it is our belief that we can support our community by offering a limited dollar amount of grants to be considered each year. A municipality can not be expected to support those organizations that provide services, which in our opinion are in the area of responsibility held by senior levels of government.”

Criteria for Awarding Grants

- Registered non-profit society
- Demonstrated financial need
- Accessible to large segments of the community
- Must have broad base of support
- Sound financial and administrative management
- Solid volunteer base
- Must have other source of financial support
- Cash grants will not be provided where the organization receives a Permissive Tax Exemption, or when the municipality is already providing services in kind for the organization.
