Version 1 – February 27th, 2026

Version 2 – March 27th, 2026

Version 3 – April 7th, 2026

The District's Financial Plan outlines the money we will raise and spend over the next five years. It is the plan that aligns the District's strategic priorities with the services delivered to residents every day.

The Government Finance Officers Association of the United States and Canada (GFOA) presented a Distinguished Budget Presentation Award to the District of Central Saanich British Columbia, for its Annual Budget for the fiscal year beginning January 1, 2025.

In order to receive this award, a government unit must publish a budget document that meets program criteria as a policy document, as a financial plan, as an operations guide, and as a communications tool.

Message from the Chief Administrative Officer

As we enter 2026, the District of Central Saanich marks its 75th anniversary, an opportunity not only to reflect on our history, but to demonstrate how we are preparing for the next generation of stewardship. This year represents the third year of our four-year Integrated Planning and Reporting cycle. Through this framework, ninety-six per cent of our multi-year Strategic Plan initiatives are either started or completed, reflecting the discipline and foresight of long-range planning.

The redevelopment of Municipal Hall stands as a major milestone, the largest facility replacement in our Asset Management Plan and a central pillar of our long-term financial strategy. Funded through the dedicated infrastructure levy, the project proceeds without new tax increases and, if approved, construction is expected to begin in late fall. In partnership with the Peninsula Recreation Commission, it will also deliver long-awaited recreation space while creating an accessible, modern civic hub designed to serve staff and community for decades to come.

The 2026 Financial Plan emphasizes routine infrastructure renewal, including roads, underground utilities, fleet, facilities, and parks. Replacing assets before failure protects service reliability and minimizes borrowing pressures, helping future Councils and residents avoid deferred maintenance and financial shocks.

Strategic investments also enhance connectivity, water security, environmental resilience, and agricultural sustainability. Phase two of the Mount Newton Pathway is underway, improving mobility, safety, and climate outcomes. Watershed work at Maber Flats and drainage evaluation in the Martindale Valley support flood mitigation, biodiversity, and farmland protection.

This work is strengthened through ongoing collaboration with **WSÁNEĆ** First Nations, with Memorandums of Understanding identified as a 2026 Council priority.

While long-range planning is essential, most of our work remains the daily services residents rely on. Thank you to Council for its commitment, and to staff whose professionalism sustains reliable service every day. Through Integrated Planning, the Financial Plan demonstrates consistent and measured tax increases to keep Central Saanich resilient into the future.

HÍSWKE / Thank You,

A handwritten signature in black ink, appearing to read 'Christine Culham', with a long horizontal flourish extending to the right.

Christine Culham

Chief Administrative Officer

Budget Summary

At present, the Central Saanich 2026 budget is balanced at \$75.5 million. This includes approximately 49 strategic plan projects totaling \$1.405 million, a \$28.4 million capital program, and continued funding escalation for required future infrastructure replacements and new active transportation infrastructure.

Property Tax Impacts

After new growth (referred to as new construction or non-market change in property assessment) is taken into account, the budget results in an average property tax increase of \$205.

Average Home Tax Increase:

Municipal Operations	3.68%	\$ 103
Police Operations	1.63%	\$ 45
Library	0.31%	\$ 9
Operations Sub-Total	5.62%	\$ 157
Infrastructure - Replacement	1.25%	\$ 34
Infrastructure - New	0.50%	\$ 14
Infrastructure Sub-Total	1.75%	\$ 48
Total	7.37%	\$ 205
Water Utility Charge	7.79%	\$ 39
Sewer Utility Charge	7.25%	\$ 29

The 2026 budget maintains the service levels and assets expected by the community and also invests new funding in the following:

- Police and Fire Services.
- Final year of increasing staffing to enable the Strategic Implementation Plan in areas of facilities redevelopment, occupational health and safety, roads maintenance, and fire inspections and prevention.
- Commitment to appropriate staffing levels to support the Strategic Implementation Plan, along with recognition of ongoing cost implications.
- The asset management plan financial strategies (1.25% for future asset replacement and 0.50% for new infrastructure).
- Greater Victoria Public Library facilities.

2026 Revenue (General Operating)

Property taxes represent the most significant funding source for municipalities; 2026 taxation is approximately \$26.19 million. The District does not have sources of income from recreation and parking, like many other local governments, but has a variety of smaller revenue sources. See page 110 for details.

- Municipal property taxes
- Government Transfers
- Reimbursements
- Reserves used for strategic projects
- Licensing & Fees
- Sale of services
- Reserves used for operating
- Penalties and interest
- Other (0.1%)
- Business and Dog Licensing (0.2%)

2026 Expenses (General Operating)

Operating expenses by function total approximately \$36.2 million. See page 110 for details.

- General Government
- Police Service
- Transfers to Reserve
- Public Works, Facilities and Parks
- Fire
- Projects and Strategic Initiatives
- Debt Servicing
- Climate Action

Five-Year Capital Budget

Totalling \$130.5 million over five years (2026-2030), the capital expenditures are driven by the need to maintain, upgrade or replace existing aging infrastructure and facilities at the end of their useful lives, meet industry standards, population growth and invest in new capital (active transportation) in alignment with the Strategic Plan and community input. See page 90 for details

- Sewer System
- Water System
- Roads
- Buildings
- Vehicles
- Drainage
- Equipment
- Parks and Trails (0.3%)

2026 Tax Collection by Property Class

Residential properties account for the largest share of total taxation, reflecting both their relative assessment base and the District's reliance on residential revenues to fund municipal services. In fact, for 2026, residential taxpayers contribute \$20.3 million which is nearly 78.8% of the total tax levy. Business and other commercial properties provide the next largest share, accounting for \$4.5 million or 17.3%. Light industry, utilities, recreation/non-profit properties, and farms together contribute approximately \$1.0 Million 3.9% combined of the \$26 million. See page 117 for details.

- Residential
- Utilities (0.13%)
- Light Industry
- Business
- Recreation
- Farm (0.16%)

2026 Budget Drivers

The 2026 Financial Plan has been developed in an environment shaped by ongoing economic uncertainty, more stable inflation, legislative change, and increasing demands on municipal infrastructure and services. While population growth within the Greater Victoria Area has moderated and Central Saanich continues to experience relatively modest growth, the District faces continued cost pressures related to wages, construction, supply chain constraints, climate related risks, and regulatory requirements. At the same time, debt management, longterm asset management objectives, and stable taxation and user fee policies remain central to maintaining affordability and intergenerational equity. In this context, the 2026 Financial Plan emphasizes prudent fiscal stewardship, disciplined service planning, and sustained investment in infrastructure renewal to support longterm financial sustainability and community resilience.

Preparation of the 2026 – 2030 Financial Plan has considered the following factors:

1. Wage and Benefits Increase:

Labour costs—over \$18 million or about 60% of operating expenses—are the main budget driver. For 2026, only the Police Association contract is settled; other union contracts and a management compensation review remain unresolved, creating budget risks.

2. Workforce Implementation Plan:

The Workforce Plan continues to drive costs in 2026, reflecting ongoing impacts from prior years' staffing decisions and strategic initiatives. The 2023 Plan recommended a total of 11.9 new positions spanning 2024 to 2026, supported by grants, reserves, surplus, and taxes. In 2025, two 0.8 FTE Career Fire positions were approved, contributing to recurring expenses. For 2026, new additions such as the summer student program with 5 positions (1.5 FTE), two police positions; a communications contractor (0.75 FTE), and administrative support (0.6 FTE) along with the full-year financial effects of all previously introduced roles. These cumulative decisions continue to shape staffing levels and associated budget impacts. Further details are available on page 14, 29 and 141.

3. Police Services cost escalation:

The Police Services budget drivers include annual wage and seniority increment increases, contracted services such as Greater Victoria Integrated units, and Regional E-Comm 911 dispatch services.

4. Fire Department cost escalation:

Fire Department costs are rising due to increased staffing, higher wages and benefits, new fire inspection roles, and greater call volumes affecting Paid-on-Call and dispatch expenses. Revenues from service agreements help offset these increases. A Fire Master Plan is in development to review service levels.

5. Resilient Asset Management Replacement Funding:

Since 2018, the District has implemented long-term tax and utility fee increases to build reserves for future asset replacement. While originally structured as a fifteen-year plan, capital funding increases are expected to be ongoing to address construction cost escalation, aging infrastructure, expanding service levels, and community growth and densification. The 2021 updates to the Asset Management Plan and Long Term Financial Plan confirmed the need for increased annual asset replacement funding due to inflation, rising maintenance costs, and new infrastructure requirements. These pressures were reflected in the 2022 Financial Plan through incremental tax increases for new assets and a realignment of water and sewer replacement funding. Funding strategies will be reviewed again in late 2026 for consideration in the 2028 Financial Plan.

6. Annual Strategic Implementation Plan (SIP) funding:

Currently, Strategic Implementation Plan projects are funded by grants and/or operating reserves. The District received early approval for two new temporary business analyst positions for 2026, and funding continues to prioritize projects scheduled for 2026 and beyond.

7. Investment revenue:

Investment returns in 2025 remained favorable. Returns are budgeted based on forecasted five-year averages/trends to facilitate tax rate stability. Changes in budgeted investment revenue for 2026 are offset by changes in tax rates and/or operating expenses, in both general operations and water and sewer utilities.

8. Other:

Modest changes, including both increases and decreases, are projected in revenue for 2026. While inflation has moderated, ongoing cost pressures are expected to continue affecting the District's operating and capital expenditures over the planning period.

Central Saanich is in a relatively stable financial position despite global economic fluctuations. Modest population growth is currently projected.

District Overview

Municipal Council

Central Saanich Municipal Council represents the citizens of the community and provides leadership as the legislative and policy making body for the organization.

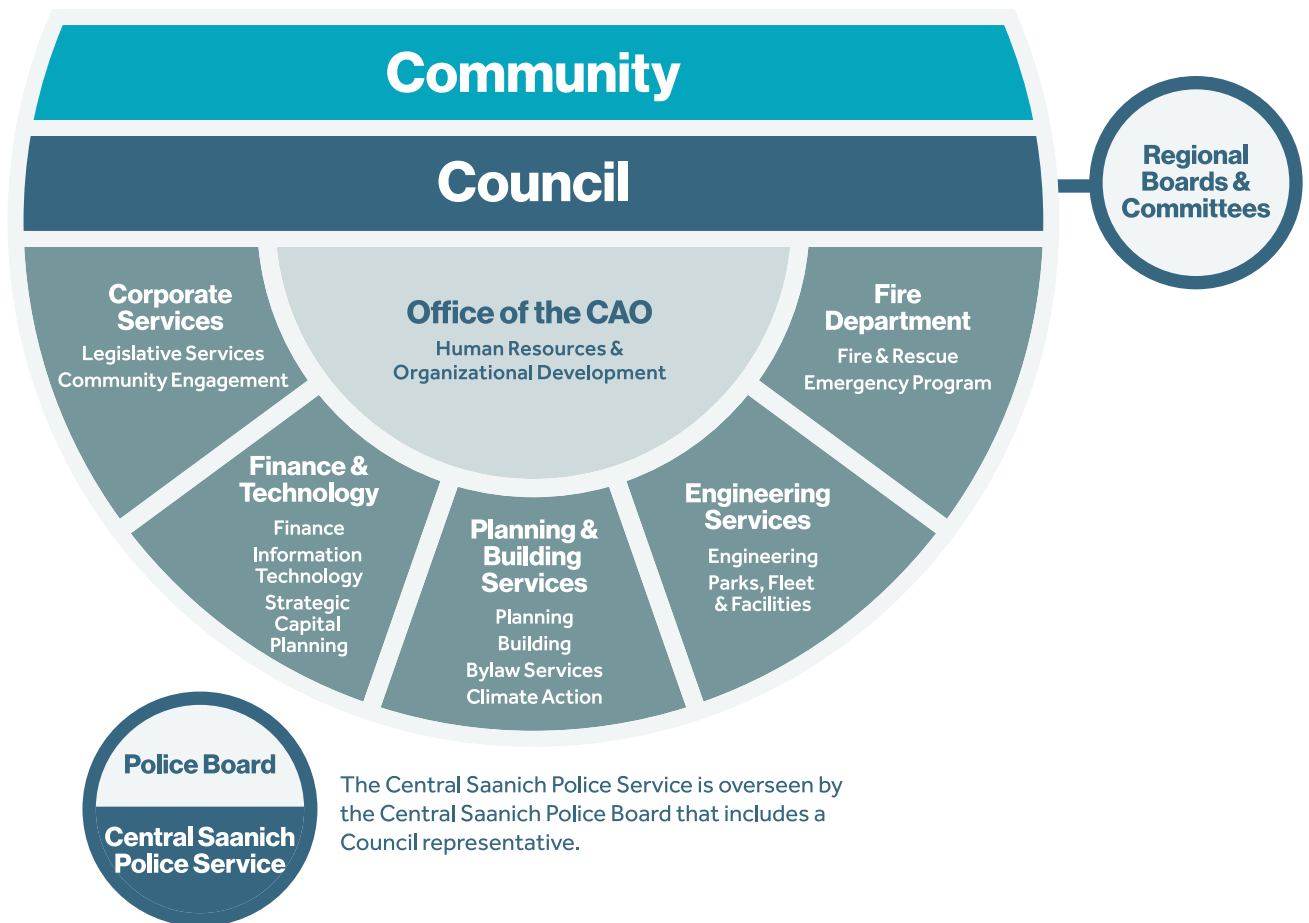

The Municipal Council is comprised of a Mayor and six Councillors who are elected to a four year term. Council meetings are webcast, and contact information for Councillors is available at csaanich.ca.

Councillor Graham | Councillor Newton | Councillor King | Councillor Paltiel
Councillor Thompson | Mayor Windsor | Councillor Riddell

Organization Profile

The Chief Administrative Officer leads a team of dedicated employees responsible for providing recommendations and policy advice to Council and coordinating the day-to-day operations of the municipality.

Community at a Glance

The District of Central Saanich spans the middle of the Saanich Peninsula and the traditional territory of the **W̱SÁNEĆ** peoples, including the **W̱JOLEŁP** (Tsartlip) and **STÁUTW̱** (Tsawout) First Nations. More than 18,000 residents call this beautiful area home.

From Island View Beach on the east to the Saanich Inlet on the west, the region includes fantastic parks, nature trails and beaches, and boasts the highest concentration of agricultural production in the region.

Sometimes referred to as the "breadbasket" of Vancouver Island, nearly 70% of Central Saanich is classified as farm land, with more than 60% held in the Agricultural Land Reserve.

It is a community that blends rural landscapes with vibrant village centers, maintaining its small-town character while planning for sustainable growth.

The necessary services are provided through two core commercial areas in Brentwood Bay and Saanichton, supported nicely by the Keating Cross Road industrial/commercial area.

We acknowledge that the Municipality is located and operates within the traditional territories of the **W̱SÁNEĆ** peoples

Integrated Planning Framework

This section provides a look at the District's multi-year planning process.

Integrated Planning and Reporting

Councils and communities need a robust, flexible, and cohesive integrated framework to support them as they work together to respond to rapidly changing circumstances and opportunities. In 2023, the District adopted a new approach to planning and reporting, Integrated Planning and Reporting, which allows the District to coordinate plans and strategies in support of a clear corporate and community vision.

Integrated planning begins with the community's aspirations through the adoption of the Official Community Plan. This forms part of the basis for Council's Strategic Plan, which is determined by Council at the start of its four-year term. Once priorities are set, it is the District's responsibility to deliver and report on objectives. This process ensures the community's big picture ambitions become operational realities.

Integrated Planning includes a suite of interconnected plans that set out a vision goals and strategic actions to achieve them. It involves a reporting structure to communicate progress to Council and the community as well as a structured timeline for review to ensure the goals and actions are still relevant.

Strategic Plan

In May 2023, Central Saanich Council adopted its 2024–2027 Strategic Plan. This plan provides a framework for decision making and prioritizing services. The plan identifies six strategic priorities, each with specific outcomes and actions to make the vision for Central Saanich, as articulated in the Official Community Plan, a reality.

Mayor, Council and staff took into account community feedback when creating the strategic plan, utilizing the Community Satisfaction Survey as well as recent public engagement opportunities. Through these channels, council members and staff were able to hear directly from residents regarding the most pressing topics and concerns.

Priorities

Invest in Infrastructure and Active Transportation

Expand the Supply of Affordable, Attainable, and Rental Housing

Foster a Community of Inclusion, Diversity, and Accessibility

Cultivate a Resilient Economy and Thriving Agricultural Sector

Champion Climate Adaptation, Mitigation, and Preparedness

Demonstrate Organizational Effectiveness

Invest in Infrastructure and Active Transportation

Goals	Tracking Progress
<p>Improve the active transportation network to foster a complete community where people live, work and play.</p>	<ul style="list-style-type: none"> • Map of Connected systems • 9.5 kms of bike lanes, sidewalks, MUPs • 9 crosswalks
<p>Prioritize infrastructure investment renewal and upgrades that consider climate adaptation and mitigation, and future growth.</p>	<ul style="list-style-type: none"> • 12 kms of road surfacing (3 kms/year) • 4.3 kms of sewer; 8 km of watermain pipe replacement • Completion of Keating Flyover • Completion of Municipal Facilities • Updates to all masterplans, engineering standards and development cost charges • Update to long term financial strategy and asset management plan • *NEW* Natural Asset Plan
<p>Facilitate increased public amenities by leveraging resources and seeking partnerships, including childcare, recreation, healthcare, and social services.</p>	<ul style="list-style-type: none"> • Completion of multi-sport box • 50 net new licensed daycare spots • Increase of recreation services (facilities and programming) in Central Saanich

Results are reported on in the Annual Report.

Expand the Supply of Affordable, Attainable, and Rental Housing

Goals	Tracking Progress
<p>Adapt and respond to emerging legislation that seek to remove barriers and incentivize a broader range of housing options.</p>	<ul style="list-style-type: none"> • 90% of rezoning planning reports before Council within 6 months • By end of 2027 building permits issued for 415 new residential units. • Streamlined approval processes that results in improved efficiency and decision making timelines – from 2023 baseline
<p>Support and encourage development proposals that expand housing diversity, including purpose built rental and legal suites.</p>	<ul style="list-style-type: none"> • Building permits issued to increase legal suites, cottages and carriage houses by 30 units by 2027 • 85% of new units are missing middle/multi-family residential • 20% of housing starts will be rental
<p>Pursue partnerships with housing providers and government agencies to deliver affordable housing and amenities.</p>	<ul style="list-style-type: none"> • 10% of housing starts will be affordable • Success in securing grants to achieve affordable housing and amenities

Foster a Community of Inclusion, Diversity, and Accessibility

Goals	Tracking Progress
<p>Strengthen relationships with the WJOLEEP (Tsartlip) and S7ÁUTW (Tsawout) First Nations based on the recognition of rights, respect and partnership.</p>	<ul style="list-style-type: none"> • Signed service agreements • SENĆOFEN place names • MOUs with S7ÁUTW (Tsawout), WJOLEEP (Tsartlip) and WSÁNEĆ Leadership Council • Standing Committees – representation and participation • Addressing and GIS Mapping for both nations completed
<p>Support community inclusion, equity, accessibility and diversity through improvements to services and the built environment.</p>	<ul style="list-style-type: none"> • Complete actions from the Accessibility Plan • Adopted Public Engagement Framework
<p>Build an organizational culture of understanding of key equity, diversity, and inclusion concepts.</p>	<ul style="list-style-type: none"> • Employee Engagement – sense of belonging, feeling heard

Cultivate a Resilient Economy and Thriving Agricultural Sector

Goals	Tracking Progress
<p>Be responsive to changing economic conditions and emerging sectors that help strengthen and diversify the District's business and industrial community.</p>	<ul style="list-style-type: none"> • Measuring businesses – compare
<p>Support the agricultural community and encourage farming that improves food security.</p>	<ul style="list-style-type: none"> • Improve drainage • Update of the Agricultural Area Plan • Completed rezoning of agricultural properties to allow more dwellings # of units • Amended Land Use Bylaw to include controlled environment structure (vertical farming) as a permitted use • Support more sustainable farming through public education
<p>Promote our unique character and encourage visitors and residents to support local businesses, agri-tourism and tourism opportunities.</p>	<ul style="list-style-type: none"> • Update business and agricultural signage to align with Wayfinding Strategy • Website to promote business and agritourism and DCS consolidate business tools • Collaborate with local tourism operators on industry-led efforts

Champion Climate Adaptation, Mitigation, and Preparedness

Goals	Tracking Progress
<p>Ensure a resilient community that is supported and prepared for extreme events through public education, planning and response.</p>	<ul style="list-style-type: none"> • Disaster Risk Reduction – Climate Adaptation Mapping completed • 100% District staff have general Emergency Operations Centre overview • 30% of households have emergency kits
<p>Improve natural asset and ecosystem management through the principles of preservation and restoration.</p>	<ul style="list-style-type: none"> • Natural Asset Mapping and Plan completed and included in updated AMP • Maber Flats Management Plan, improvements and Collaboration Plan with W SÁNEĆ Leadership Council Land Trust completed • Evaluation of Martindale upgrades completed • Tree Canopy Study completed
<p>Reduce GHG emissions by continuing to demonstrate climate leadership and apply a climate lens to decision making and initiatives.</p>	<ul style="list-style-type: none"> • Reduce Corporate GHG Emissions by 15% • Fleet Electrification Plan (Appendix) • Public Education Campaigns – Active Transportation, Emergency Management, Climate Mitigation • Expand PACE program to include solar • Completed bylaw for construction waste disposal • Increase EV chargers in District by 25

Demonstrate Organizational Effectiveness

Goals	Tracking Progress
<p>Deliver excellent, accessible and responsive customer service for our diverse community.</p>	<ul style="list-style-type: none"> • Community Satisfaction Survey • Website updates
<p>Improve internal processes through adoption of best practices, legislative authority, and new technology.</p>	<ul style="list-style-type: none"> • Policy review • Quarterly reporting • Enhanced strategic planning process with longer range planning • Introduction of new technology (e.g., Tempest, e-Apply) • Implement GIS
<p>Build strong relationships through collaboration and engagement with community members, service providers, and government agencies to advance community interests.</p>	<ul style="list-style-type: none"> • Community service agreements

Implementing the Strategic Plan

The Strategic Plan is supported by an implementation plan (pages 134 - 140), listing new projects staff have identified to achieve the goals of Council. In 2026, approximately 14 projects will kick off. These projects reflect the winding down of the 2024-2027 Strategic Plan, while laying the foundational groundwork for the 2027 planning cycle. See the summary of projects for 2026 on the next page.

2024-2027 Strategic Implementation Plan – Projects Beginning in 2026

Start	Project	Target	Project Areas Impacted						
2026	Phase 2 of Sharepoint for Business and Process Automation Systems	2027	●						●
2026	Explore Keating Land Use Options (North Keating)	2026		●					
2026	75th Anniversary	2026			●	●			●
2026	Accessibility Plan Update and Implementation 2027-2030: Focus on Parks and Trails Accessibility Standards	2030			●		●		●

For full SIP see page 134. The capital program is also part of the SIP and is detailed starting on page 90.

Workforce Plan

The District's Workforce Plan identifies the required staff to support the District's routine operations, such as upcoming capital projects, as well as delivering the new projects to achieve the goals of the 2024-2027 Strategic Plan. In 2026 some modest increases in staffing will be required.

The Workforce Implementation Plan is reviewed and updated annually, and a new Workforce Plan will be developed in the 2027 Integrated Planning process.

Details of the 2026 Plan included in the draft budget are outlined below. The table identifies positions and implementation year.

Department	Position	FTEs Requested	2025 Budget	2026 Budget	Filled
Administration	Summer Student Program	0.3		0.3*	N
	OHS and Disability Management	1	1		Y
Finance	Deputy Director, Strategic Capital Planning	1	1		Y

	Communication Contractor	0.75		0.75	N
Total		7.95	6.6	2.95	

*Early Approval 2026

Separate from the Workforce Plan, two temporary Business analyst funded through Surplus for Project Based Work & Site Attendant (Capital)

Financial Plan Overview

This section provides an overview of the framework used to develop the Financial Plan. It also identifies the District's financial fund structure, finance policies, and the budget process and timeline.

Grant Funding Awarded in 2025

The District of Central Saanich wishes to acknowledge and thank the following organizations that awarded the District generous grants in 2025.

Total grant funding approved by external funding sources in 2025  **\$1,668,117**

\$ 855,018	Canada Community-Building Fund (Gas Tax), Union of BC Municipalities (UBCM)
\$ 250,000	Gun and Gang Violence Action Fund, Province of BC
\$ 164,000	Small Community Grant, Province of BC
\$ 161,000	Traffic Fine Revenue Grant, Province of BC
\$ 93,099	Enabling Accessibility Fund (EAF), Government of Canada
\$ 48,000	Indigenous Engagement-Emergency & Disaster Management Act, Province of BC
\$ 47,000	Local Government Internship Program Grant, Local Government Management Association
\$ 40,000	Emergency Operations Centres Equipment & Training Program, UBCM
\$ 10,000	C2C Grant, UBCM

Budget Process

Every year Council and staff work together to develop the budget. The process begins with staff bringing Council an overview of the anticipated budget drivers. This is followed by drafting a budget based on the framework below.

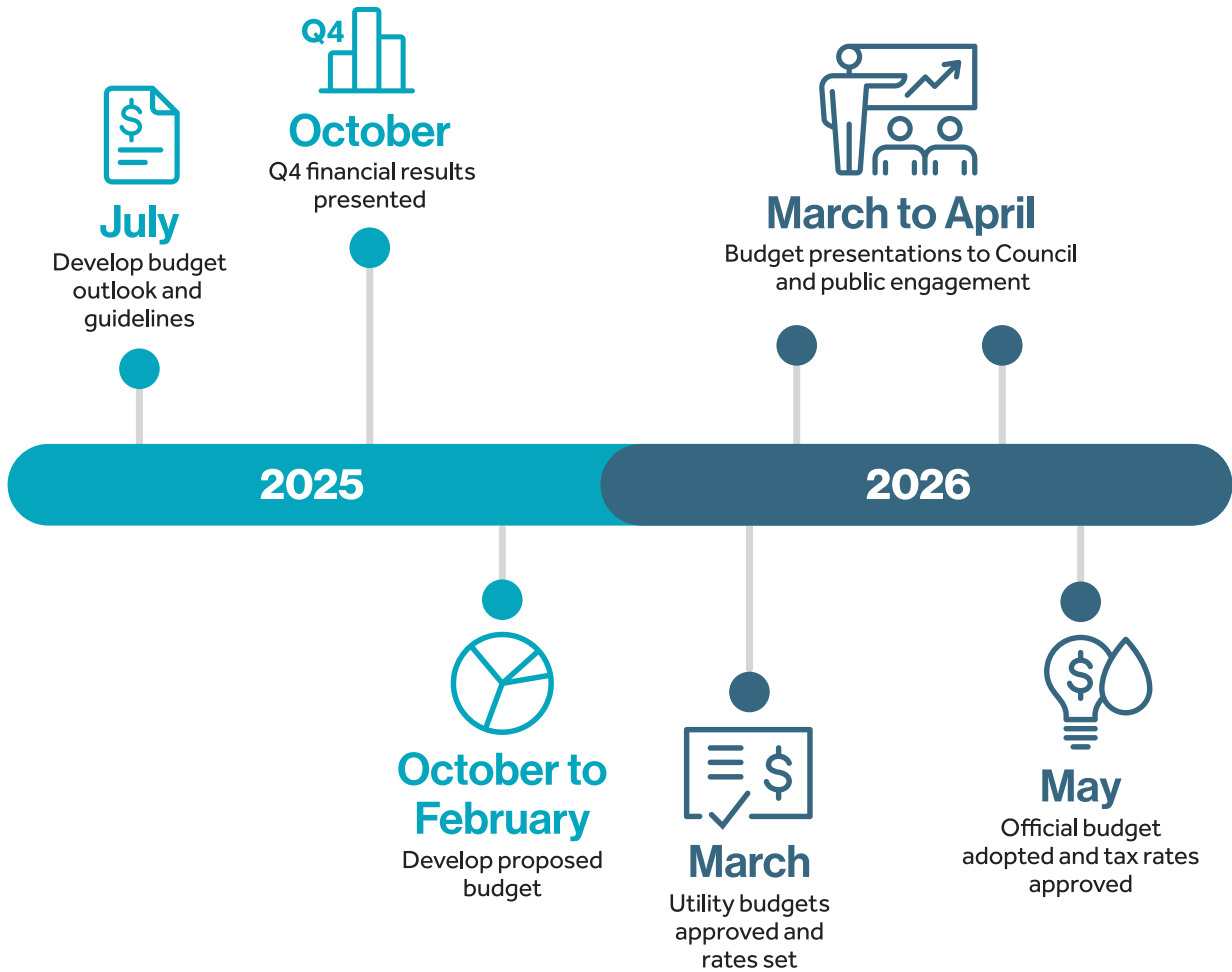

A number of key plans are used as the basis for the development of the Financial Plan, including the Official Community Plan, Strategic Implementation Plan, master plans (water, sewer, stormwater, facilities, transportation), and our Asset Management Plan long-term financial strategies.

The District's various departments and the Central Saanich Police Service outline the activities that will be undertaken in the budget year to support their workplans, which are driven by the SIP and ongoing operations. Through these departmental work plans, the District can effectively coordinate human and financial resources to achieve the priorities as set by Council and the community.

Input from District Council, staff, residents and others all helps build a financial plan that sets our community up for success now and into the future.

Budget Timelines

Budget Principles

1. Fiscally responsible, balanced, and focused on the long-term

The budget is built with a long-term view in mind. This ensures long-term strategies are pursued for financial resiliency and considers external economic conditions.

2. Affordability and cost effectiveness

By ensuring value for money through productivity and efficiencies, the District aims to keep property taxes and fees reasonable for services delivered.

3. Service level approach

The budget is prepared to deliver community services at the standard directed by Council and legislation. The financial impact of service-level changes are specifically identified so Council can make decisions with all available information. The District endeavours to fund and deliver services in the most cost effective manner.

4. Keep debt at a manageable level

The municipality takes a very careful and strategic approach to the use of debt. A significant proportion of District infrastructure was constructed in the 1960s and 1970s and will require replacement in coming years. Debt servicing is anticipated as part of the long-term financial plan and major infrastructure replacements required over the next ten to twenty years.

5. Measured property tax and user fees

Property taxes, utility charges and user fees are reviewed each year with due care and process. Comparisons with other local governments, labour contracts, new services and inflation are used as a guide.

6. Balanced taxation principle

The municipality maintains tax stability by setting tax rates that reflect the proportionate relationship of property classes, while taking into account deletions from the tax roll, changes in property classes, and significant assessment changes. New construction values are used to reduce the overall average tax increase as opposed to used as additional revenue. This gives taxpayers confidence their property taxes will increase proportionately to the increase in tax revenue required, taking into account assessment increases of their property to the assessment class average. This is particularly important in a rural agricultural municipality with a significant proportion of ALR farmland that is both assessed and taxed at proportionally low levels of taxation.

7. Maintain assets in a healthy state of repair

Maintaining core infrastructure and amenities in a healthy state of repair is critical to the long-term financial resilience of the community, and helps ensure asset management obligations are not deferred and infrastructure funding deficits do not accumulate to unacceptable levels for future generations, adaptable, and expandable spaces to accommodate changing demographics and future growth.

8. Optimize capital investments

Before adding new facilities, the municipality will consider repurposing and right-sizing existing facilities and continue to advance the principles of co-location and functional integration of services to enhance operational efficiency and customer service. All new facilities will be designed with flexible, adaptable, and expandable spaces to accommodate changing demographics and future growth.

Consolidated Past Results Summary

	2021	2022	2023	2024	2025

Adoption of PS3400 Revenue Standard				(289,000)	
Accumulated surplus, end of year	\$ 126,109,454	\$ 132,474,133	\$ 145,058,438	\$ 157,338,364	\$ 157,338,364

Operating results fund investing activities such as transfers to reserves for replacement of infrastructure.

Financial Plan Summaries

This section provides the consolidated plan, outlining the operating budgets, water and sewer utilities and capital programs.

Consolidated Budget

The Central Saanich Consolidated Financial Plan for 2026 balances \$75.5 million in revenues and funding with \$75.5 million in total expenses and transfers to reserves. The plan continues to have a dedicated focus on asset management and infrastructure replacement. This requires striking a balance between the need to continue increasing capital replacement funding to targeted levels, maintaining service capacity and keeping operating costs in check. Sound fiscal choices must be made that reflect community priorities and a measured level of increases in the current economic climate.

General Fund (Property Taxation)

After new construction growth (non-market change in property assessment) is taken into account, the 2026 budget is based on a combined Municipal, Police, and Library property tax increase of \$157 to the average home. In addition, 1.25%, or \$34, for future asset replacement, and 0.50%, \$14, for new and active transportation infrastructure. In total this represents a 7.37% increase or \$205 to the average residential property (approximately \$17 per month).

An average residential property in Central Saanich for 2026 has an assessed value of \$1,091,000 with a 1.0% assessment increase from 2025.

2026 Average Tax Increase

Municipal Operations	3.68%	\$ 103
Police Operations	1.63%	\$ 45
Library	0.31%	\$ 9
Operations Sub-Total	5.62%	\$ 157
Infrastructure - Replacement	1.25%	\$ 34
Infrastructure - New	0.50%	\$ 14
Infrastructure Sub-Total	1.75%	\$ 48
Total	7.37%	\$ 205
Water Utility Charge	7.79%	\$ 39
Sewer Utility Charge	7.25%	\$ 29

General Capital Program (Infrastructure Replacement Levy)

The District's 2022 Asset Management Plan (updated from 2017) outlines a long-term approach for capital replacement investment and targeted funding levels. To provide clarity and transparency an Infrastructure Replacement Levy was introduced in 2017. This is projected to increase funding by a 1.25% property tax increase each year. In addition, a 0.50% increase was introduced in 2022 for new and active transportation infrastructure. These contributions when combined with debt servicing and coordinated use of existing reserves will provide for a resilient funding level once targeted levels are achieved.

	2026	2027	2028	2029	2030
Reserves and Debt Contributions	\$ 5,999,500	\$ 6,955,500	\$ 8,800,455	\$ 9,727,369	\$ 10,217,457
Asset Levy - Average home	\$ 778	\$ 902	\$ 1,141	\$ 1,262	\$ 1,325

The next review is scheduled for end of 2026 for a late implementation in 2028.

Some debt financing will be required over the timeframe of this financial plan as replacement spending and major projects are greater than the District's reserve savings and annual funding.

Construction cost inflation is a significant factor in this plan. By increasing funding each year, the District moves toward annual targeted funding levels to help mitigate future inflationary pressures.

The plan is reviewed every five years to reevaluate inflation, replacement costs, and annual targeted funding levels. The next review is scheduled in 2026 for 2027 implementation.

Impact of Capital Investment on Operating Costs

The majority of the District's five-year capital program (\$130.75 million) is focused on the replacement of existing infrastructure and major facilities, and will assist in maintaining the current operating cost to repair and manage those assets. Modest upgrading of assets is planned and this will help improve service. For a small organization, the District has an ambitious five-year capital program ahead as its long-term underground infrastructure, installed in the 1960s through 1980s, reach the end of their useful lives and come due to be replaced. As we escalate capital replacement programs, it's expected there will be future impacts to operating costs to facilitate and pay for that work.

Water and Sewer Utility Funds

The 2022 update of the Asset Management Plan identified a healthy level of replacement funding in water, and a gap in the sewer utility. Over the next three years rate increases will be focused on the sewer utility to set both utilities on a trajectory to reach targeted funding levels by 2032.

Water Utility Fund

The 2026 Water Utility Budget is based on a water rate of \$2.214 per cubic metre and a fixed charge of \$141 annually. A 6.08% increase over the 2025 rate. For an average residence this would be a combined total of \$680 based on a median consumption of 244 cubic metres; a \$39 increase over 2026.

The 2026 Water Capital Program includes the ongoing annual pipe replacement program as asbestos concrete pipes come to the end of their useful life.

Sewer Utility Fund

The 2026 Sewer Utility Budget is based on a sewer rate of \$2.409 per cubic metre. This is an increase of 7.2% and for an average residence or an increase of \$29 over 2025 (\$432 annually). For 2026, the Brentwood/Hagan Pump Station and Force Main replacement and upgrades is expected to be completed: the scope of work for the project involves reconfiguration of the conveyance system and replacement of undersized pump station.

Reserves and Surplus Summary

The District's Reserves and Surplus are detailed starting on page 105. Reserves are expected to be reduced during the term of this plan due to the use of Capital Reserves and Gas Tax funding for infrastructure replacement programs.

Debt Summary

Overall, debt levels are expected to change over the five-year term of this plan. New debt will be needed to fund water and sewer system replacement work, new transportation priorities such as the Keating Flyover, and possible major facility replacements should those projects proceed.

Consolidated Budget Summary

	2025	2026	2027	2028	2029	2030

Service Plans

This section provides a summary of each department's plans and performance metrics to ensure the Financial Plan demonstrates operational needs and to guide financial planning decisions.

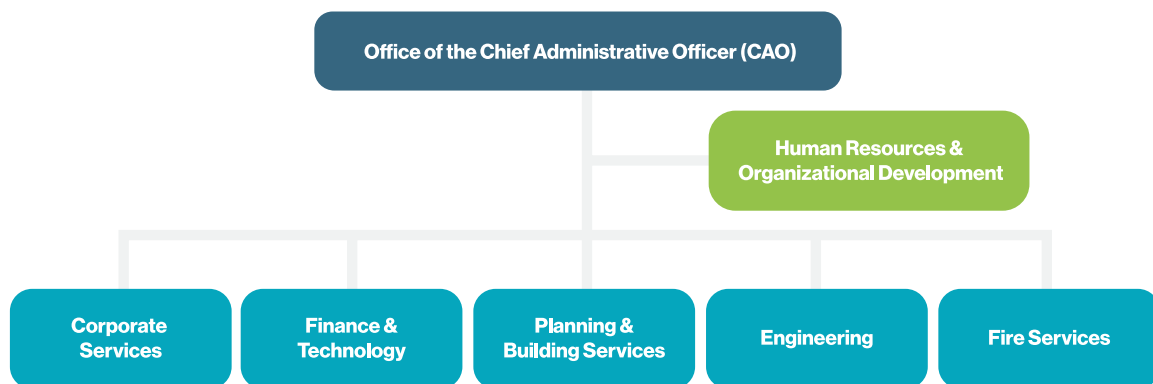

Administration

The Chief Administrative Officer oversees the overall conduct of the municipality by providing guidance and direction to staff and Council. The office plays a lead role in addressing immediate needs of the organization and community, as well as working towards long-term priorities.

Human Resources and Organizational Development leads and supports the organization in the assurance that the District has a workforce that meets the needs of the organization.

Office of the CAO

- Oversees the overall performance of the municipality in pursuing the District's strategic goals
- Oversees departmental programs; budgets and policy initiatives
- Makes recommendations to Council; ensures Council's directives and strategic priorities are carried out
- Manages significant corporate initiatives

Human Resources & Organizational Development

- Creates a high performing organization that supports staff to achieve the District's strategic and operational goals
- Provides advice and support for staffing, labour relations, employee development, occupational health and safety, disability management, diversity, equity and inclusion, employee wellness, change management and related programs

Accomplishments for 2025

- Hired the District's first safety specialist role
- Continuing to build on safety program for District Employees
- Continued to build on accessibility in the workplace focus

Priorities for 2026

- Strengthening HR organizational effectiveness through continuous improvement efforts

Budget Summary

The Administration net budget for 2026 is increasing by \$420,500, or 40.8% from 2025. This increase is funded by the following sources:

- **Property Taxation:** \$197,700, increase in property taxes collected from the community.
- **Operating Reserves (Surplus):** \$222,800, which comes from surplus funds set aside in previous years.

The budget increase is attributable to:

- Status quo wage and benefit increase \$11,600
- Additions from the Work Force Plan, including a new Occupational Health and Safety position, full-year funding for the 0.5 Executive Assistant \$139,800
- Supplies and materials for Occupational Health and Safety \$12,600
- Increase to Human Resources Recruitment \$12,000.
- Other minor increases, materials and supplies \$6,700
- Increase to Municipal Insurance premiums of \$15,000
- Temporary business analyst, LMGA Student and Summer Student funded through operating reserves (surplus) \$222,800

Operating Budget

Corporate Services

Corporate Services works closely with Council and the public. The department supports the business operation of Council and Committees as well as providing counsel and support on matters including communications and engagement, reconciliation, legal, insurance and access to information.

Legislative Services

- Coordinates Council and Committee agendas, meetings and minutes, as well as elections
- Oversees corporate record management and Freedom of Information and Protection of Privacy
- Enables an open, transparent, inclusive and participatory municipal government
- Leads First Nations relations
- Oversees insurance and legal claims

Community Engagement

- Leads District communications
- Facilitates public engagement and input during planning processes
- Liaison for community groups and volunteers
- Maintains District website, engagement portal and social media account
- Prepares corporate reports
- Plans special events

Accomplishments for 2025

- Significant completion towards the First Nations agreements
- Supported the Civic Redevelopment Project, including multiple education and engagement opportunities
- Community and road safety campaigns

Priorities for 2026

- Adoption and Implementation of a Public Engagement Framework and Customer Service Strategy
- Conduct local election and orientation for Council members
- 75th Anniversary Celebration planning
- Support the Civic Redevelopment Project

Budget Summary

The Corporate Services net budget for 2026 is increasing by \$200,100, or 8.0% from 2025. This increase is funded by the following sources:

- **Property Taxation:** \$68,400, increase in property taxes collected from the community.
- **Operating Reserves (Surplus):** \$131,700, which comes from surplus funds set aside in previous years.

The budget increase is attributable to:

- Status quo wage and benefit decrease (\$5,700)
- A net decrease in other expenses totaling (\$5,400)
- Greater Victoria Public Library requisition increase of \$79,500, or 7.1%
- Elections funded through operating reserves (surplus) \$131,700

Finance & Technology

The Finance & Technology Department provides financial support services and is responsible for the overall financial management of the municipality, payroll and benefits support and the purchase of all goods and services. Information Technology manages District technology, provides specialized support for Police and Fire, and upgrades core software products. Strategic Capital Planning supports the long-term financial and asset management planning and budgeting to ensure efficient and cost-effective management of assets.

Finance

- Accounting audit and budgeting of over \$35 million in annual expenses and revenues
- Coordinates payroll
- Processes accounts payable
- Billing and collection of all revenues

Information Technology

- Manages District computer, phone and technology services
- Maintains a geographically dispersed voice and data network system
- Provides specialized support for Police and Fire Services
- Ensures network and internet security
- Operates helpdesk service for staff assistance
- Maintains and upgrades core software products

Strategic Capital Planning

- Long-term financial strategy and asset management planning
- Capital budget and planning
- Reserve and investment management
- Real estate, land acquisition and infrastructure management

Accomplishments for 2025

- GFOA 2025 Budget Award
- Audit Completion and Clean Audit
- Teams roll out across District and Police

Priorities for 2026

- GFOA 2026 Budget Award
- Audit Completion and Clean Audit
- Baseline review of IT services for long term planning

Finance

Budget Summary

The net budget for Finance is an increase of \$15,100, or 1.3% over 2025. This increase is funded by the following sources:

- **Property Taxation:** \$100, increase in property taxes collected from the community.
- **Operating Reserves (Surplus):** \$15,000, which comes from surplus funds set aside in previous years.

The budget increase is attributable to:

- Status quo wage and benefit decrease (\$101,900) due to the Deputy Director position, with the new Work Force Plan position (\$137,300) moved to facilities capital reserve funding.
- Other miscellaneous expenses increase of \$2,000
- Contracted services increase \$15,000, funded through surplus.
- Increase in Interest on Deposits and Prepaid Taxes of \$100,000 offset by interest income.

Technology

Budget Summary

The net budget for Technology is an increase of \$75,200, or 7.4% over 2025. This increase is funded by the following sources:

- **Property Taxation:** \$75,200, increase in property taxes collected from the community.

The budget increase attributable:

- Status quo wage and benefit increase \$31,400
- Increase in hardware and software licensing \$39,800
- Other minor increases \$4,000

Planning, Building & Bylaw Services

The Planning, Building & Bylaw Services Department includes Community and Current Planning, Building Inspections, Bylaw Services, and Climate Action. Services provided include administration of the Official Community Plan policies and municipal Zoning Bylaw, processing development and subdivision applications, regulating building construction, ensuring bylaw compliance, issuing business licences, planning for future development, and leading the District's climate action initiatives.

Planning

- Administers the Official Community Plan policies and municipal Zoning Bylaw
- Oversees long-range community planning and corporate strategic projects to manage growth in the community
- Processes development and subdivision applications, and planning for future development

Building

- Regulates building construction and administers the BC Building Code and District Building Bylaw
- Monitors construction relating to Building, Plumbing, Business Licence and Sign Permit applications
- Updates bylaws and procedures related to building construction

Bylaw Services

- Helps maintain a healthy and safe environment in the municipality
- Investigates and enforces municipal bylaws with a focus on voluntary compliance
- Coordinates the business licence program, providing assistance and guidance to the business community

Climate Action

- Identifies ways to reduce corporate and community greenhouse gas emissions to meet corporate and community targets, and increase climate resilience via adaptation measures
- Oversees and implements actions from the Climate Leadership Plan
- Leads climate adaptation initiatives compliance

Accomplishments for 2025

- Substantial work on Comprehensive Zoning Bylaw update, including community engagement.
- Created a Natural Assets Inventory and Tree Canopy Study
- Provincial Housing implementation, including Housing Targets reports

Priorities for 2026

- Complete the Zoning Bylaw review
- Complete update to Development Permit Guidelines.
- Implement the Natural Assets Inventory and Tree Canopy Study

Budget Summary

The net budget for Planning and Building Services is an increase of \$294,100, or 29.0% over 2025. This increase is funded by the following sources:

- **Property Taxation:** \$151,600; increase in property taxes collected from the community.
- **Operating Reserves (Surplus):** \$142,500, which comes from surplus funds set aside in previous years.

The budget increase is attributable to:

- Wage and benefit increases, including full-year implementation of the Building Manager position, \$86,100.
- An increase of \$23,700 in the CRD Animal Control contract to reflect new contract activities.
- Reduction to other minor expenses of (\$1,500).
- The Project Manager position, with a funding allocation of \$128,300 from operating reserves (surplus), was transferred from project reporting to department-level reporting for enhanced clarity.
- \$14,200 increase for Climate Action Funding (surplus).
- Decrease in permits and fee revenue of \$43,000 based on 5-year average.

Operating Budget

Fire and Emergency Services

The Central Saanich Fire Department provides the community with Fire and Life Safety Education, Fire Prevention Programs, Hazardous Material Response, First Responder Medical Aid, and Emergency Fire and Rescue Response along with Confined Space Rescue Service. These services are also provided under a servicing agreement to both WJOLELP (Tsartlip) and STÁUTW (Tsaowut) First Nations Lands.

The Department consists of the Fire Chief, Deputy Fire Chief, a part time administrative assistant, 7.6 career firefighters, 1 inspector and 40 Paid on Call Firefighters. The Fire Department is also responsible for managing the Central Saanich Emergency Program consisting of an Emergency Program Manager and a grant-funded FireSmart Coordinator.

Fire & Rescue

- Emergency fire and rescue response
- First-responder medical aid
- Hazardous material response
- Public education and fire prevention programs

Emergency Program

- Ensures continuity in government
- Provides a plan for preserving life and property
- Coordinates response from elected officials, municipal departments, volunteer services and outside agencies
- Public education and preparedness

Accomplishments for 2025

- Updated and added new bylaws to reflect changes in the new Fire Safety Act
- Addressing Project Completion for WJOLEEP (Tsartlip) and SĀĀUTW (Tsawout)
- Updated Emergency Response Plan
- Performed large-scale, multi-agency FireSmart/Emergency Operation Center exercise
- Integrated a new fire inspector position and two 0.8 firefighter positions
- Addressing & GIS Mapping Project Completion for WJOLEEP (Tsartlip) and SĀĀUTW (Tsawout)

Priorities for 2026

- Full-service review of all Fire Department and Emergency Program operations
- Develop a risk-based inspection program to comply with the new Fire Safety Act
- Improve wildfire response with the upgrade of the Sprinkler Protection Unit and addition of a new mini-pumper brush apparatus
- Service review for Peninsula Emergency Measures Organization (PEMO)
- Yard waste disposal research
- Regional Indigenous engagement

Budget Summary

The net budget for Fire Services is an increase of \$329,200, or 12.7% over 2025. This increase is funded by the following sources:

- **Property Taxation:** \$162,300; increase in property taxes collected from the community.
- **Operating Reserves (Surplus):** \$166,900, which comes from surplus funds set aside in previous years.

The increase is attributable to:

- Status quo wage and benefit increases, \$26,000, including full time temporary implementation administrative support position.
- A decrease in Paid on Call costs totaling \$174,000 is offset by an increase of \$201,800 to fully implement two 0.8 FTE career fire employees; resulting in a net increasing of \$27,800.
- Full-year implementation of Work Force Plan with cost increases from a new Fire Inspections role \$127,200.
- Increase in fleet costs including transition of non-productive labour costs from Engineering Administration, \$23,300.
- Increase in utilities and other expenses, \$16,700
- Minor increase in emergency programs \$7,600
- Minor increase to Dispatch for increase call volumes \$4,900
- The Fire Smart Employee position was shifted from project to department reporting and is funded by operating surplus \$138,400.
- Increase in First Nations Fire Service Contract revenue, (\$48,700), offset by a minor decrease to other revenues of \$6,000

Engineering

Engineering is responsible for all municipal infrastructure. The District's infrastructure includes:

- **133** kilometres of paved roads
- **470** Street Lights
- **80** traffic islands
- **83** kilometres of storm sewers
- **120** kilometres of drainage ditches
- **100** kilometres of sanitary sewers, sewage pumps and lift stations
- **130** kilometres of water main, pressure-reducing valves and booster pumps
- **46** municipal buildings
- **39** parks, playgrounds and open spaces
- **28** beach accesses covering over **81** hectares

Infrastructure (Roads, Drainage, Water & Sewer)

- Operates and maintains the water, sewer, roads, and drainage systems
- Designs and implements all infrastructure and transportation systems and processes
- Approves all subdivision developments and inspects all works installed by private developers that become municipal property (e.g., roads, sidewalks, traffic control measures, drainage, sanitary sewers, water mains)
- Issues soil deposit and removal permits, tree cutting permits in areas susceptible to soil erosion, driveway access permits and permits to work within municipal road allowance

Parks, Facilities & Fleet

- Operates and maintains 40 Community, Neighborhood and Passive Parks, trails, playgrounds, naturalized green spaces and 28 public beach accesses
- Maintains Municipal buildings, Parks & Recreation facilities, Heritage buildings, and External Users facilities
- Manages District fleet including Police and Fire vehicles

Accomplishments for 2025

- Implement Phase 1 of the speed reduction program
- Replacement of a critical, large diameter culvert on Hagan

Priorities for 2026

- Update the Engineering Standards
- Assess the Martindale and Maber Flats drainage

Budget Summary

The net budget for Engineering Services is an increase of \$63,300, or 4.2% over 2025. This increase is funded by the following sources:

- **Property Taxation:** \$10,600; increase in property taxes collected from the community.
- **Operating Reserves (Surplus):** \$52,700, which comes from surplus funds set aside in previous years.

The budget increase is attributable to:

- The transition of the Project Coordinator position to Facilities, funded by Capital Reserves, results in a reduction of wages and benefits totaling \$53,600.
- An increase of \$70,300 is allocated for the new workforce plan position for the Summer Student Program; 1 taxation, 3 Surplus.
- Additional minor increases amount to \$1,600.
- Engineering fee Revenue: reflect a slight decrease of \$45,000 due to a decline in Fortis and Subdivision fees.

Operating Budget

Municipal Yard

Budget Summary

The net budget for Municipal Yard is an increase of \$93,600, or 5.0% over 2025. This increase is funded by one main source:

- **Property Taxation:** \$93,600; increase in property taxes collected from the community.

The budget increase is attributable to:

- Status quo wage and benefit increases, \$63,700
- Increase in fleet costs including transition of non-productive labor costs from Engineering Administration, \$24,800
- Roads and drains increase of \$4,100
- Increase in Traffic Signal consultation of \$1000

Accomplishments for 2025

- Continued redevelopment planning of the Municipal Yard
- Modernized Occupational Health & Safety standards

Priorities for 2026

- Update Confined Space Entry procedures and alternative measures
- Commence site works to work with surrounding grades and Municipal Yard redevelopment

Operating Budget

	2025 Budget	2025 Forecast	2026 Budget	Change \$	Change %

Parks

Budget Summary

The net budget for Parks is an increase of \$34,000, or 2.3% over 2025. This increase is funded by the following sources:

- **Property Taxation:** \$34,000; increase in property taxes collected from the community.

The increase is attributable to:

- Status quo wage and benefit increases, \$38,000
- Increase in fleet costs including transition of non-productive labour costs from Engineering Administration, \$800
- Minor decrease in other expenses totaling \$200
- Increase to facilities rental revenues (\$5,000)

Accomplishments for 2025

- Facilitate the CRD completing the Multi-sport Box in Centennial Park
- Installed community information boards at Centennial Park and HEL,HILEÇ

Priorities for 2026

- Produce a sustainable Parks and Trails implementation Plan
- Commence accessibility upgrades at Centennial Park

Facilities

Budget Summary

The net budget for Facilities is an increase of \$64,400, or 12.0% over 2025. This increase is funded by the following sources:

- **Property Taxation:** \$64,400; increase in property taxes collected from the community.

The increase is attributable to:

- Status quo wage and benefit increases, \$6,900
- Increase to Custodial across all facilities as a result of the full implementation of contracted services and consulting fees, \$40,000
- Increase to Fire Hall Station #1 maintenance and consulting, \$16,800
- Minor decrease in other expenses totaling \$9,100 to maintain service levels.
- Decrease in revenues of \$9,800 in facilities rentals.

Accomplishments for 2025

- Led installation of new community signs
- Completed substantial building maintenance and roof projects

Priorities for 2026

- Replace the storage shed at Centennial Park

Water Utility

The District's water supply system is part of the Saanich Peninsula Water System which receives its water supply from the Capital Regional District Integrated Water System. The District's water system network consists of approximately 125 km of water mains.

The system also includes 4,200 metered services and 480 hydrants. It is maintained by the Municipal Yard and is self-financed from water charges and fees on a user-pay basis. Water service is provided to both the **WJOLEEP** (Tsartlip) and **STÁUTW** (Tsawout) First Nations via service agreements. The Utility provides safe drinking water for domestic, commercial, agricultural and emergency use and meets applicable firefighting standards, health standards and the *Drinking Water Protection Act*.

Accomplishments for 2025

- Complete construction of the watermain replacement on Wallace Drive

Priorities for 2026

- Complete construction of the East Saanich and Central Saanich watermain replacements
- Complete the Water Master Plan

Budget Summary

The 2026 budget balances \$7.6 million in revenue and expenses. Water rates will increase by 6.08%, making the price \$2.214 per cubic meter, along with a fixed annual fee of \$141, calculated using the 2025 usage data. For an average household that consumes 244 cubic meters, this means the yearly water bill will reach \$680, which is \$39 more than it was in 2025. Operating expenses include status quo wage and benefit increases, and a CRD bulk water rate increase of 8.10%.

The First Nations water supply is projected to transition to the Capital Regional District (CRD) in 2026; however, corresponding adjustments are not reflected in the Draft Financial Plan. Upon transition, First Nations will have the opportunity to purchase water directly at the regional bulk water rate, which is lower than the District's retail rate. Approximately 18% of the District's total water consumption will be excluded from sales and bulk water costs calculations, and the differential will be remitted to the District as a conveyance fee by the CRD. The capital component related to transfers to reserves will shift to District water rate payers. Amendments to the water budget and rates will be implemented once an official transition date has been established.

Reserve transfers have increased by \$50,000, reaching a total of \$1,100,000. This change comes after the District updated its 2021 Asset Management Plan and adjusted the reserve funding strategy for future water infrastructure projects. The sewer utility now faces annual rate increases, as it needs additional funding to replace assets over the next 10–20 years. The water fund is projected to be lower than required, and corrective action will need to be taken to reach the necessary asset replacement funding levels by 2032.

Operating Budget

	2025 Budget	2025 Forecast	2026 Budget	Change \$	Change %

Sewer Utility

Sewer Utility operates a sanitary only sewer collection system in four core areas (Brentwood Bay, Saanichton, Keating Ridge and Turgoose Point) that consists of approximately 89 kilometres of gravity sewers, 5 kilometres of force mains, 3.9 kilometres of siphons and 15 lift stations. There are approximately 3,800 household and business connections and 2,800 manholes. The system is maintained by the Municipal Yard Department and is self-financed from sewer charges on a user pay basis.

The system is interconnected with WJOLĒLP (Tsartlip) First Nation and two Capital Regional District lift stations. The SĪÁUTW (Tsawout) First Nation operates its own system and is not connected to the District's network.

Effluent is transferred through the system to a Peninsula Unified Treatment plant operated

by the Capital Regional District located in North Saanich. The cost of operating the treatment system is shared by the Peninsula municipalities and recovered by a property tax levy charged to all Central Saanich taxpayers.

Accomplishments for 2025

- Commence second stage of the Brentwood Bay Sewer project

Priorities for 2026

- Complete the Brentwood Bay Sewer project
- Complete the Sewer Master Plan

Budget Summary

The Sewer Utility's five-year Financial Plan includes yearly increases in sewer user rates to cover both operating expenses and growing asset replacement funding. In 2026, this means a \$29 increase—7.20% more—for the median residential property rate, bringing the annual total to \$432. Operating costs stayed steady, except for typical wage and benefit changes. Reserve transfers will rise by \$151,000, moving from \$1,365,000 in 2025 up to \$1,516,000 in 2026.

These changes follow the District's 2021 Asset Management Plan update and demonstrate dedication to strengthening reserve funds for future sewer infrastructure replacements. The strategy now prioritizes annual rate increases for the sewer utility, which needs more asset replacement funding than the water utility because of planned allocations and expected infrastructure upgrades over the next ten to twenty years. The sewer fund is projected to be lower than required, and corrective action will need to be taken to reach the necessary asset replacement funding levels by 2032.

Police Service

The Central Saanich Police Service, through its governing Police Board, consists of 28 sworn police officers (includes seconded officers to integrated teams) supported by seven civilian staff, two volunteer reserve Constables and several volunteers. They provide a professional level of service through locally based uniform policing and integrated specialized units.

The Central Saanich Police Board is composed of eight members who provide independent civilian oversight and governance for the Central Saanich Police Service. The Board currently consists of one member recommended by the municipal council, a Council representative and six members of the community, appointed by the Lieutenant Governor in Council.

Police Service

- Uniformed patrol
- General investigative services
- Community engagement and schools
- Traffic safety

Police Board

The Police Board includes:
Rene Johansson (Chair),
Sarah Riddell (Council appointee),
Jim Rondeau, Mike McKay ,
Diane Hollinshead, Jordan Marin,
Blair Fisher and Mark Kaercher.

Accomplishments for 2025

- Secured a significant Provincial grant to support initiatives aimed at reducing gun and gang violence within the community
- Oversaw the successful recruitment of three new police cadets and one experienced police officer
- Provided leadership in establishing a regional child exploitation investigative team
- Implemented a redesigned crest incorporating local Indigenous artwork

Priorities for 2026

- Welcoming of a new Deputy Chief Constable
- Initiation of a comprehensive refresh of departmental operational and administrative policies
- Implementation of several new digital tools including HealthIM and Next Generation 9-1-1 in collaboration with regional partners
- Continual enhancement of processes related to digital evidence management and supporting software systems

Budget Summary

The net budget for Police is an increase of \$388,500, or 5.6% over 2025. This increase is funded by the following sources:

- **Property Taxation:** \$388,500; increase in property taxes collected from the community.

The increase is attributable to:

- Status quo wage and benefit increases, \$220,600
- Increase to existing casual labour hours, \$40,000
- Decrease in Police Major Crime Contingency Funding, (\$150,000)
- Increase in ECOMM Dispatch Services, \$82,500
- Increase in Victoria Integrated Unit budgets, \$78,800, offset by savings from withdrawal from three units in 2025.
- Fleet and Police Patrol Boat cost increase, \$37,200
- Consulting and other contracted services, increase, \$29,000
- Legal, Board and Governance increase, \$41,000
- Operational Contingency decrease, (\$25,000)
- Other minor increase, \$4,100
- Minor increase in revenues for secondments and grants, \$4,300
- An increase in transfer to capital replacement reserves of \$37,000

Asset Management

This section provides an overview of the District's long-term approach to managing assets.

Asset Management and Long-Term Financial Plan

In 2017 the District implemented an Asset Management Plan and long-term Financial Plan to escalate annual funding for future asset replacement to higher, more resilient levels. The goal of that plan was to fund \$6.2 million a year from taxes and utility fees with ten to fifteen year plans.

In 2021 the Asset Management Plan was updated.

Based on inflation and construction cost escalation, there is a need for the District to increase the amount of asset replacement funding raised and set aside each year. The Plan's update recommends average annual asset replacement funding be increased from \$6.20 million to \$10.76 million, specifically for future replacement of existing assets. The need for a financial strategy to fund new infrastructure was also identified.

Maintenance costs are also increasing substantially, and the District is planning to add new infrastructure, such as active transportation.

Central Saanich is not in a unique position – all local governments are faced with significantly increasing infrastructure costs as infrastructure built in the 1960s through 1980s comes to the end of their useful lives. In addition, there are limited revenue sources to fund this work. **Taking care of existing infrastructure is the most important financial responsibility of asset management for the District.**

Our assets include, but are not limited to:

- More than 46 municipal buildings
- 140 km of roads
- 40+ parks
- 125 km of water mains
- 89 kilometres of gravity sewers
- lift stations
- pump and pressure stations
- and sewer connections for homes and businesses

Asset Management:

- Maintain assets in a healthy state of repair
- Maintain financial strategies and reserves to replace assets at the end of their useful lives
- Optimize capital investments to meet public and economic needs while achieving value for the investment

Condition Assessment

The District's public infrastructure is in reasonable condition and is rated as C overall. This is a combined assessment of Condition and Performance, Capacity versus Need and Funding versus Need. As is the case with most Canadian municipalities, increased funding will be required to replace existing infrastructure. By increasing funding levels over time and focusing on priority infrastructure areas the current C condition assessment rating is projected to improve to B by 2027.

Infrastructure Report Card

Asset Group	Rating	Comments	Projected Rating in 2027 at Proposed Funding
Roads	B	Good condition. Catch up of deferred road top required.	B+
Drainage	C-	Reasonable condition. Significant renewal of drains and culverts in next decade.	B
Facilities	C	Reasonable condition. Public Works and Municipal Hall complex are next priorities.	B
Parks and Trails	C	Reasonable condition. Increased funding will improve rating.	B-
Vehicles and Equipment	B-	Reasonable condition. Increased funding will improve rating.	B
Water	C-	Reasonable condition. AC Main replacement is priority for next decade.	C
Sewer	D+	Poor condition. Significant investment needed in next decade to replace lift stations and mains.	C
Overall	C		B

The condition assessments were not fully reevaluated as part of the 2021 update due to lack of detailed information such as asset master plans including condition and risk assessment. Master plans and further assessments will take place over the next three years and be included in the infrastructure report card of the 2026 plan update.

The condition ratings are not unusual and indicate that most assets are in reasonable condition. The sewer system is rated slightly lower than most primarily due to the low level of funding currently available and the significant amount of infrastructure that is reaching end of useful life over the next decade. This is to be expected and can be significantly improved with the changes in annual funding and regular annual replacement programs. Major buildings are in reasonable condition, though the public works facility and Municipal Hall Complex are approaching their end of life.

Capital Renewal

The 2022 Asset Management Plan update reported the District has over \$565 million dollars in public infrastructure with an average annual replacement cost of \$10.76 million dollars. Over the next fifty years renewal investment is expected to be approximately \$565 million dollars.

Component	Estimated Asset Life	Value at Current Replacement Cost	Average Annual Replacement Cost
Roads	15 to 75 years	\$ 93 million	\$ 1.9 million
Drainage	15 to 75 years	\$114 million	\$ 1.7 million
Facilities	15 to 75 years	\$ 83 million	\$ 1.64 million
Parks and Trails	15 to 75 years	\$ 17 million	\$ 0.3 million
Vehicles and Equipment	15 to 75 years	\$ 20 million	\$ 1.62 million
Water	15 to 75 years	\$105 million	\$ 1.5 million
Sewer	15 to 75 years	\$135 million	\$ 2.1 million
Total		\$565 million	\$10.76 million

Financial Position

Current replacement investment (2026) from revenues is \$7.777 million per year and average annual replacement at sustainable levels from revenues is targeted at \$10.76 million (2022 Asset Management Plan update). This means that the District is currently funding 70% of average annual replacement needs.

In 2017 the District restructured the capital program to establish an asset baseline levy and a system of asset reserves to manage this investment. This baseline for asset replacement was updated in 2022. The update identified a gap of \$4.56 million per year in required future asset investment funding (\$10.76M-\$6.2M). However, it is important to understand that \$10.76 million is an average projection figure; it is a baseline over fifty years. In some years, the requirement may be greater; in some years, it is less. It is incumbent upon the District to manage its asset investments year over year so that annual asset investments are reasonable and consistent.

The District's 2022 Asset Management Plan proposes a gradual approach to increase the overall current level of capital investment to reach a \$10.76 million resilient infrastructure replacement level, balance debt financing and provide assistance with upgrading, expansion and growth in the future based on the following:

- Use of a separate asset levy to clearly identify infrastructure funding for taxpayers.
- General Capital Program: 15-year plan to increase infrastructure investment equal to 1.25% property tax increase to average homeowner each year (average of \$30 per year to average home) to increase infrastructure investment equal to \$7.2 million by 2032.
- Water System: 15-year plan to increase infrastructure investment equal to \$1.5 million by 2032.
- Sewer System: 15-year plan to increase infrastructure investment to \$2.1 million by 2032. Debt financing will be required to bridge the next ten years as funding is gradually increased and we begin replacement of aging underground sewer pipes and lift stations.

It is incumbent upon the District to manage its asset investments year over year so that annual asset investments are reasonable.

Five Year Tax Projection - Average Home

	2026	2027	2028	2029	2030
Property Tax - Asset Levy	\$778	\$902	\$1,141	\$1,262	\$1,325

Key priority areas in the near term are maintaining the annual road top management program, and implementing annual replacement plans for asbestos concrete water and sewer pipes, steel drains, sewer gravity lines and sewer lift stations.

The majority of the District's capital program is focused on the replacement of existing infrastructure and will assist in maintaining the current operating cost to repair and manage those assets. Modest upgrading of assets is planned and will help improve service. Some change is anticipated in operating costs over the five-year term of this Plan as the District starts annual replacement programs for a large volume of its underground infrastructure over the next ten to twenty years.

Capital Program

Summary

The District's five year capital program proposes a total of \$130.584 million in asset renewal and \$1.265 million in upgrading and expansion. The majority of the projects are funded from reserve funds supplemented by grants and debt for specific road, water and sewer projects. This continues the process of aligning capital programs with the Asset Management Plan and Active Transportation Plan.

Capital Budget

	2026	2027	2028	2029	2030

The following pages outline individual capital programs for each of the asset categories.

Roads and Active Transportation

For 2026, paving and patching works are pursuant to the maintenance and rehabilitation inspection and the past condition report. Some modifications to the proposed work program may be made, subject to grants or conditions that present themselves over the year and inclement weather.

Active Transportation

Active transportation is a top priority for our community, and we are making good progress on improving walking, biking and other mobility options. In July of 2023 Council approved an accelerated plan that includes \$10.4 million of active transportation infrastructure from 2024 through 2027, funded by a \$5.4 million Growing Communities Funds Provincial grant and \$5.0 million in long-term debt.

Progress to date and \$10.4 million four-year plan

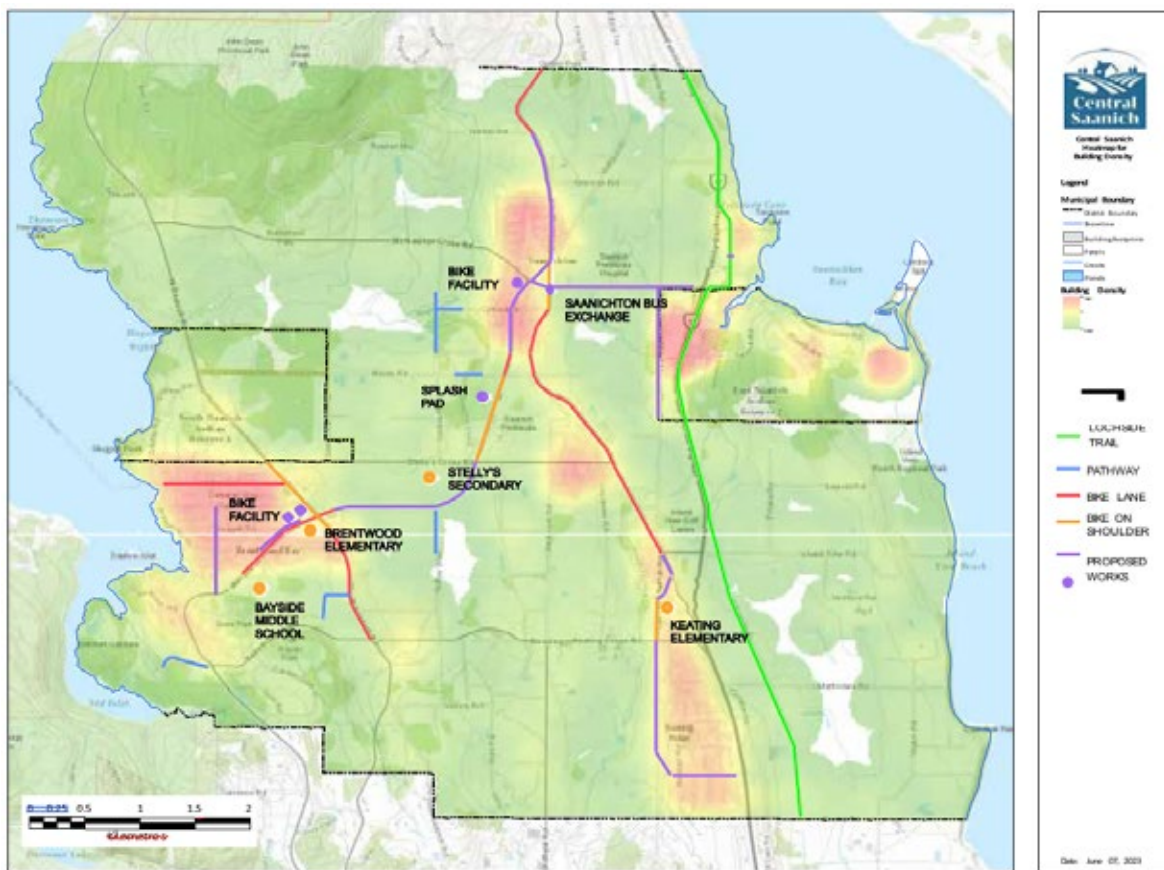

Over the last three years a number of projects got underway or were completed, including a wayfinding signage strategy, bike lane infill along Wallace Drive, pedestrian activated cross walks, and increasing pedestrian and cyclist safety along Wallace Drive in Brentwood Bay. Projects to highlight include:

- **Wallace Drive bike lane (Prosser Road to East Saanich Road)** – This section of bike lane will complete the link between Brentwood Bay and Saanichton. The project design and construction are coordinated with a required water main replacement. Conceptual design began in 2023, with detailed design completing and construction completed in 2025 for the section between Prosser Road and Lisnoe. Design includes a sidewalk from Lisnoe to Cultra, a pedestrian activated crosswalk at Cultra, and assessment of crosswalks and design of the Mt Newton Cross Road and Wallace Drive intersection
- **Mt Newton pathway (from Pat Bay highway to Lochside Drive)** – This is another high priority of the Active Transportation Plan. Phase 1 was completed, with partial funding by the BC Active Transportation Grant in 2025, Phase 1 was for the section between the Pat Bay highway and Lochside Drive. Phase 2, Mt Newton Cross Road from Pat Bay highway to East Saanich Road, has completed conceptual design options in 2025 with public engagement for final alignment and detailed design in 2026 and possible start of construction in 2027.

- **Central Saanich pathway (from Mt Newton going south)** – This has been conceptually designed with the Mt Newton Pathway, and is Phase 3. Central Saanich Road from Mt Newton Cross Road south, has conceptual design complete and will commence once the CRD's Main #4 replacement is complete. Public engagement will commence late 2026 so that detailed design can be completed for construction starting in 2027 or 2028 depending on the completion of the CRD Main #4.
- **Saanichton Village bike lane and sidewalk improvements** – Conceptual and detailed design of what is possible along Wallace Drive is complete. Design along Mt Newton Cross Road between East Saanich Road and Wallace Drive is dependant on the alignment of the Mt Newton Pathway design and the East Saanich Road and Mt Newton Cross Road intersection which are underway.
- **Active transportation wayfinding** – The District has designed improved signage to help cyclists and pedestrians navigate the District easily and safely. Implementation will occur with new infrastructure as well as where possible

2024-27 Active Transportation Plan Infrastructure Map

Existing and proposed active transportation infrastructure.

Funding the Active Transportation Plan (ATP)

Beginning in 2022, a portion of property tax revenue has been allocated annually to active transportation projects, supported by ongoing tax increases of 0.25% to 0.50%.

Additional funding will support the Plan including external grants, Development Cost Charges (DCC) Community Amenity Contributions (CAC), and long-term debt funding.

15-Year Active Transportation Property Tax Funding Trajectory

Roads Capital Budget

	2026	2027	2028	2029	2030
Infrastructure Renewal

Drainage

The District's stormwater drainage system includes natural and constructed systems: 73 kilometres of constructed storm sewers, 120 kilometres of drainage ditches and 32 kilometres of creeks in three watershed areas.

An Integrated Stormwater Management Plan was approved in 2009, and an update is scheduled for 2027. The focus of this work is on management of the 73 kilometres of constructed drainage systems. The system is valued at \$114 million dollars with an average annual reserve fund investment of \$1.7 million required to renew the system on a lifecycle basis (2021). Significant work is planned over the next two decades to begin replacement of aging drain pipes that are approaching the end of useful life. In 2025, a major culvert cross Hagan Road was replaced after an annual inspection indicated that it would likely fail under a major rainfall event. Annual inspections of culverts continues to ensure that culvert replacements are carried out prior to failure.

Drains Capital Budget

	2026	2027	2028	2029	2030
Infrastructure Renewal					
Pipe Replacement Program, Steel	\$ 115,000	\$ 120,000	\$ 125,000	\$ 130,000	\$ 135,000

Total Investment	535,000	270,000	275,000	280,000	285,000
Funding Source					
Reserve Funds	454,000	270,000	275,000	280,000	285,000
Development Charges	81,000	-	-	-	-
	\$ 535,000	\$ 270,000	\$ 275,000	\$ 280,000	\$ 285,000

Facilities

The District's facilities are valued at a current high level replacement cost of \$83 million dollars with an average annual reserve fund investment of approximately \$1.64 million required to renew most on a lifecycle basis (2021). No funds are set aside to replace heritage structures.

Funding for 2026 includes a number of priority Facility Long-term Asset Management Plan (FLAMP) projects including roof repairs, and the Fire Station #2 backup generator replacement. In 2025, the CRD completed the Centennial Park Multi-sport box.

The District's Municipal Hall (administration, police, fire station #2) and Public Work sites are at the end of their useful lives and are due for major restoration or replacement. Options for the Municipal Hall were studied and have been presented to the Public and Council in 2025 for decision on the path to move forward. The Public Works site options are still being considered prior to Council presentation.

Facilities Capital Budget

	2026	2027	2028	2029	2030
Infrastructure Renewal					
Facility Long-term Asset Mgmt Plan	\$ 356,000	\$ 12,000	\$ 380,000	\$ -	\$ -
Municipal Hall, Police, Fire Stn#2 Redevelopment	4,000,000	35,000,000	25,000,000	-	-
Municipal Yard Redevelopment	2,000,000	8,000,000	4,000,000	-	-

Debt	-	23,000,000	10,500,000	-	-
	\$ 6,000,000	\$ 43,000,000	\$ 29,000,000	\$ -	\$ -

Municipal Facility Replacement

The redevelopment of Municipal Hall, funded without introducing new taxes, will establish a modern civic hub and offer additional recreation space. The 2026 Financial Plan emphasizes routine renewal of infrastructure—including roads, utilities, fleet, facilities, and parks—to uphold service reliability, minimize borrowing, and avoid deferred maintenance. Several strategic projects, such as the Mount Newton Pathway, watershed improvements at Maber Flats, and drainage evaluation in Martindale Valley, have been prioritized. These initiatives are designed to boost connectivity, strengthen environmental resilience, and support agricultural activities.

- Fire Station 1 (completed in 2013)
- Municipal Hall
- Police Station
- Fire Station 2
- Municipal Yard facility

These buildings need replacement to address seismic deficiencies, post-disaster standards, accessibility, energy and safety issues, legislated standards, and support the District's growing needs.

Financial Plan for Municipal Facility Replacement

Because this project was identified as coming due almost 20 years ago, we are in a strong financial position based on actions over the past decade including debt management and creating sufficient reserves.

The project will be funded by:

1. Reserves (savings) including land sales
2. Debt

Project Update

Since February 2025, when the 2025 Financial Plan was published, Council has resolved to build the municipal facility at 1882 Hovey Road, with ground-floor space for recreation provided and paid for by the Capital Regional District (Peninsula Recreation Commission). The current site at 1903 Mount Newton Cross Road will be redeveloped as a mix-use site and is an important piece of the financial plan.

Next Steps for 2026

New municipal facility at 1882 Hovey

- Schematic design to be complete
- Class C and cost estimate presented to Council
- Development design to be complete
- Construction of Hovey to begin

1903 Mt Newton Cross Rd

- Issue and receive Request for Proposals
- Developer selected to present concept to the community
- Possible sale/lease of 1903 Mt Newton

1882 Hovey Budget

	2026
Hard Costs	
Building Construction & Site Development	\$ 46,350,000
Contingency	10,740,000
Fire Museum	1,000,000
Total Hard Costs	58,090,000
Soft Costs	
Consultants (Architect as prime)	3,370,000
Construction Manager	1,430,000
Other (staff, legal, procurement, consulting)	1,110,000
Total Soft Costs	5,910,000
Total Construction Costs	64,000,000
Land Sale Revenue*	17,000,000
Total Costs	47,000,000
Funding	
Capital Reserves	13,500,000
Debt	33,500,000
Total Funding	47,000,000

*Projected land sale revenue: Includes land disposition, acquisition and contingency.

Parks and Trails

The District's park and trail structures are comprised of 40 community, neighborhood and passive parks, 4 tennis courts, 4 sport courts, 2 sport fields, 6 ball diamonds, a lacrosse box, 10 children's play areas, 3 picnic shelters, 2 docks and several kilometres of trails.

The structures are valued at a current replacement cost of \$17 million dollars with an average annual reserve fund investment of approximately \$300,000 required to renew on a lifecycle basis (2021).

Renewal Investment over the next five years will focus on park infrastructure replacements and playground replacements coordinated with the Parks Master Plan to be completed in 2026. The construction of a new splash pad at Centennial Park was completed in spring of 2025. The District was successful in its 2025 accessibility grant for the Centennial Park playground, upgrades will commence throughout 2026.

Parks Capital Budget

	2026	2027	2028	2029	2030
Infrastructure Renewal					
Annual Park Infrastructure Program	\$ 270,000	\$ 30,000	\$ 30,000	\$ 30,000	\$ 30,000
<i>Pickleball Court Conversion</i>	66,000	54,000	-	-	-
Total Investment	296,000	84,000	30,000	30,000	30,000
Funding Source					
Reserve Funds	202,900	84,000	30,000	30,000	30,000
Grants and Contributions	93,100	-	-	-	-
	\$ 296,000	\$ 84,000	\$ 30,000	\$ 30,000	\$ 30,000

Fleet

The District maintains a fleet of vehicles for Administration, Public Works, Parks, Utility and Public Safety use. Average annual reserve fund investment of approximately \$1.0 million is required to renew on a lifecycle basis (2021).

Fleet renewal of vehicles at the end of their life cycle reduces vehicle breakdown, emissions and is a more cost effective method in maintaining the fleet. Each vehicle is assessed annually based on a combination of age, repair history and mileage. Fleet rightsizing is reviewed each time and if feasible, electric or hybrid vehicles are considered. The District's priority is to electrify vehicles at replacement whenever operationally feasible.

Planned fleet replacements/rightsizing for 2026 includes one Police front line medium duty vehicle, one Parks light duty vehicles and one Water van, replacement of the backhoe, street sweeper, carry forward of the flush truck replacement and sander truck attachment, a Fire department medium duty front line vehicle and completion of the replacement of the brush truck. The supply chain issues over the last number of years has created a backlog of replacements.

Fleet Capital Budget

	2026	2027	2028	2029	2030
Infrastructure Renewal					
Police Vehicles	\$ 120,000	\$ 120,000	\$ 250,000	\$ 260,000	\$ 260,000
Fire Vehicles	905,000	1,750,000	157,000	1,750,000	-
Parks Vehicles	235,000	90,000	9,000	-	70,000
Roads Vehicles	628,000	230,000	180,000	133,000	150,000
Total Investment	1,888,000	2,190,000	596,000	2,143,000	480,000
Funding Source					
Reserve Funds (General)	1,768,000	2,070,000	346,000	1,883,000	220,000
Reserve Funds (Police)	120,000	120,000	250,000	260,000	260,000
	\$ 1,888,000	\$ 2,190,000	\$ 596,000	\$ 2,143,000	\$ 480,000

The District maintains a fleet of vehicles for Administration, Public Works, Parks, Utility and Public Safety use

Equipment

The District also maintains a variety of equipment for Information Technology, Public Safety and Municipal Yard, with an average annual reserve fund investment of about \$620,000 (2021).

Equipment Capital Budget

	2026	2027	2028	2029	2030
Infrastructure Renewal					
Server Replacement Program	\$ 247,000	\$ 42,000	\$ 42,000	\$ 57,000	\$ 67,000

	\$ 587,000	\$ 147,000	\$ 92,000	\$ 362,000	\$ 207,000

* Police IT Equipment is currently funded through the District's Capital Reserve funds.

Water

The District's water supply system is part of the Saanich Peninsula Water System which receives its water supply from the Capital Regional District Integrated Water System through Bear Hill Reservoir and the Alderley Pressure Reducing Valve (PRV). There are two CRD transmission mains crossing the District with 11 supply points to the municipal distribution network. The Utility provides safe drinking water for domestic, commercial, agricultural and emergency use and meets applicable firefighting standards, health standards and the Drinking Water Protection Act. Water service is also provided to both the W̱JŌŁŁŁP (Tsartlip) and S̱ṮAŪṮW (Tsawout) First Nations via service agreement.

The District's water system network consists of approximately 125 km of water mains ranging in diameter from 50 mm to 300 mm. Within the distribution network, there are ten pressure zones, two active pump stations, one reservoir, and nine PRV stations. Because the municipal water system is closely intertwined with the Saanich Peninsula Water System, some of these facilities are owned and operated by the CRD. The system also includes 4,200 metered services.

The water system is valued at a current replacement cost of approximately \$105 million dollars (2021). An average annual investment of approximately \$1.5 million is required to renew the existing system on a lifecycle basis. For 2026, the annual pipe replacement program will continue with priority replacements based on age, overall condition, and coordination with other road and underground works. The CRD will be extending and replacing key transmission mains along East Saanich Road and Central Saanich Road, District asbestos cement pipe will be replaced at the same time. Planned water main replacement along Tanner Road and in the Tanner Ridge area will commence once the Keating Overpass project is completed.

Water Capital Budget

	2026	2027	2028	2029	2030
Infrastructure Renewal					
Vehicles and Equipment	\$ 350,000	\$ -	\$ -	\$ -	\$ -
Pipe Replacement	3,455,000	3,200,000	2,500,000	2,500,000	2,500,000
Contingency	150,000	150,000	150,000	150,000	150,000
Total Investment	3,955,000	\$3,350,000	2,650,000	2,650,000	2,650,000
Funding Source					
Reserve Funds	3,955,000	2,350,000	1,150,000	1,150,000	1,150,000
Debt	-	1,000,000	1,500,000	1,500,000	1,500,000
	\$ 3,955,000	\$ 3,350,000	\$ 2,650,000	\$ 2,650,000	\$ 2,650,000

The District's water system network consists of 125 km of water mains ranging in diameter from 50 mm to 300 mm.

Sewer

The District's sewer utility operates a sanitary only sewer collection system in four core areas (Brentwood Bay, Saanichton, Keating Ridge and Turgoose Point) that consists of 89 kilometres of gravity sewers, 5 kilometres of force mains, 3.9 kilometres of siphons and 15 lift stations. The system is interconnected with WJOLEEP (Tsartlip) First Nation and two Capital Regional District lift stations. The (SÁUTW) Tsawout First Nation operates its own system and is not connected to the District's network.

There are approximately 3,800 household and business connections and 2800 manholes. Effluent is transferred through the system to a Peninsula Unified Treatment plant operated by the Capital Regional District located in North Saanich. The cost of operating the treatment system is shared by the Peninsula municipalities and recovered by a property tax levy charged to all Central Saanich taxpayers. The Sewer system is valued at a current replacement cost of approximately \$55 million dollars, with an average annual investment required approximately \$2.1 million (2021).

In 2026, the District is expected to be completed the Brentwood Bay/Hagan Pump Stations and Force Main Project with the completion of the Brentwood Bay pump station upgrades and decommissioning of the Hagan pump station. Once completed, the project will deliver greatly improved handling of sanitary flows from Brentwood Bay and mitigate the risk of system failures. This will be the District's largest ever capital project, in excess of \$13M. 2025 also includes continued sewer pump and lift station improvements at the Kirkpatrick, Devonshire, Cultra, and Butchart stations.

Sewer Capital Budget

Background

This section provides an overview of reserves, debt and statistical information.

Reserve Funds and Accumulated Surplus

The Municipality maintains statutory and other general reserve funds for a variety of purposes. Revenues are contributed to each reserve as they are received. These revenues could include contributions from the general operating fund water utility fund and sewer utility fund for sustainable infrastructure replacement, investment income earned on the reserve balance, revenues from the sale of land, development cost charges received or other fees and contributions.

The District's reserves and surplus policy provides guidance on minimum and suggested reserve and surplus fund levels.

Accumulated surplus in the general, water and sewer utility funds is projected to remain consistent over the five-year financial plan horizon

Over the five-year financial plan reserves and surplus are projected to reduce by \$26.769 million as we plan to increase infrastructure investments over time.

Accumulated Surplus is retained to provide working capital for operations. From time to time allocations of surplus are made to fund individual projects or contributed to reserves for a defined purpose.

2026 Financial Plan Reserves Forecast & Scorecard

	Policy Target		Balance 2025	Status 2025	Balance 2030	Status 2030

Debt Management

The District uses levels of debt servicing to supplement reserve fund investment financing of large capital projects and in periods of major replacement.

Current debt financing has been used for the following projects:

East Saanich Road Improvements	\$2,333,333
Fire Station 1	\$8,895,700
Keating Road Flyover Improvements	\$2,500,000
Wallace Drive Bike Lane	\$1,070,000
Brentwood Bay Sewer Replacement	\$3,000,000

Debt Financing will likely be required for water, sewer and facilities infrastructure if grants from senior levels of government are not received.

2025 Debt Bylaws Approved:

Municipal Facility Redevelopment	\$33,500,000
----------------------------------	--------------

Current Debt Servicing Projection:

	2026	2027	2028	2029	2030
Debt Service	\$ 1,152,500	\$ 1,704,000	\$ 3,288,500	\$ 3,977,600	\$ 4,215,500

Future Debt Required to Fund Infrastructure Over Next Five Years:

Roads	\$2 million
Facilities	\$33.5 million
Water	\$5.5 million
Sewer	\$4 million
Total	\$45 million

The District is currently investigating upgrading or replacing major facilities such as the municipal hall site, and Municipal Works Yard. Should either of these move forward, debt financing will be required.

Operating Fund Five Year Estimates

The Municipality is required by the Community Charter Act to adopt a five-year financial plan bylaw on or before May 15. This plan includes five-year operating estimates. Given the dynamic nature of the municipal environment, five-year estimates are prepared on a broad-brush basis with adjustments made for significant cost factors where they are known with some certainty.

The net budget funded from property taxation is projected to increase from \$25.8 million in 2026 to \$31.3 million in 2030 or an average 5.48% increase to the average homeowner. This includes a 1.25% increase for infrastructure replacement and 0.5% for new infrastructure on average.

General Operating Budget Summary

	2026	2027	2028	2029	2030
General Operating Revenue					
Municipal property taxes	\$ 25,764,000	\$ 27,177,900	\$ 28,490,400	\$ 29,985,600	\$ 31,414,000

Projects and Initiatives

Five Year Estimates

Annual projects and strategic initiatives are developed through service reviews and studies as well as strategic planning. Currently these initiatives are funded through operating reserves as annual surplus allows.

Water Utility Fund Five Year Estimates

The net budget funded from water utility charges is projected to increase from \$7.6 million to \$8.8 million in 2029 or an average 4.86% increase to the average homeowner. This includes increases in operations, CRD bulk water purchases, and increases for infrastructure replacement funding.

Water utility rates are subject to change due to the upcoming transition of the First Nations water supply to direct wholesale purchasing from the Capital Regional District (CRD), anticipated in 2026. This transition is not yet reflected in the Draft Financial Plan.

Sewer Utility Fund Five Year Estimates

The net budget funded from sewer utility charges is projected to increase from \$2.71 million to \$3.1 million in 2029, or a 7.6% increase to the average homeowner. This includes increases in operations and for infrastructure replacement funding each year.

Sewer - Operating Budget

	2025 Budget	2025 Forecast	2026 Budget	Change \$	Change %	2027 Budget	2028 Budget	2029 Budget	2030 Budget

Glossary

Accrual: An accounting method which measures the financial performance and position of an organization by recognizing economic events when they happen, regardless of when the related cash actually changes hands.

Appropriated: When a fund is appropriated, it is subject to certain restrictions on what its assets can be used for.

Asset: Anything you own that has monetary value plus any money you are owed.

Balanced budget: A financial plan where current revenue, including transfers from operating reserves, equals current operating expenditures.

Capital asset: General capital assets are those in excess of \$10,000 with a useful life of two or more years (e.g., land, buildings).

Capital budget: A financial plan outlining projected expenditures on capital assets during a given fiscal period.

Capital project: Creation or improvement of infrastructure assets.

Carbon footprint: Amount of carbon dioxide (CO₂e) that is emitted by the municipality.
Community charter: The provincial legislation governing local governments. This legislation replaced the Local Government Act in 2003.

Council: The six councillors elected at large that represent the municipality and the Mayor as a whole.

Development cost charge (DCC): A fee paid by a developer to help fund cost related to developing a property. Often these fees are used for parks and streets, and for infrastructure used to provide water, sanitary sewer and storm drainage services.

Development permit: A permit that allows development of a property subject to certain conditions such as the timing or sequence of construction, density of development, alteration of specific requirements of the zoning of the property etc.

Fee: A fee is a charge to recover the cost of providing a service. Financial plan
This term is used interchangeably with "budget".

Full-time equivalent (FTE) staff: A statistic used to compare staffing levels between departments or organizations, and is calculated by dividing the total number of hours one full-time staff member is scheduled to work in a year.

Fund: A pool of money normally set apart for a specific purpose.

Fund balance: The excess of assets over liabilities in a fund.

GHG: Green House Gases are gasses generated from fossil fuel burning, released into the atmosphere and linked to climate change.

Grant Funds: given to an organization from another organization (senior government to local government) which may have conditions attached to it and require specific spending to occur or goal to be accomplished in order to retain the funds.

Infrastructure: Physical structures that form the foundation for development. Infrastructure includes: wastewater and waterworks, electric power, communications, transit and transportation facilities and oil and gas pipelines and associated facilities.

Liability: A loan, expense, or any other form of claim on the assets of an entity that must be paid or otherwise honoured by that entity.

Operating budget: A financial plan outlining projected revenue and expenditures for the on-going, day-to-day activities of an organization during a given fiscal period.

Revenue: The money collected in exchange for providing a product or service.

RFP: A Request For Proposal is issued at an early stage in a procurement process, where an invitation is presented for suppliers to submit a proposal on a commodity or service.

Sanitary sewer: The sewage system that carries substances requiring sanitation treatment.

Sustainability: In terms of community development, sustainability is that which meets the needs of the present without compromising the ability of future generations to meet their own needs.

Tax: A compulsory financial contribution imposed by a government to raise revenue.

Utility: A business organization performing a public service and subject to special governmental regulation.

Utility tax: A financial contribution imposed by Provincial legislation to substitute taxation based on assessment for applicable utility companies. Tax calculation based on gross revenues.

Funding Structure

The accounting policies of the District conform to generally accepted accounting principles in Canada; the Consolidated Financial Statements are prepared as prescribed by the Public Sector Accounting Board (PSAB) of the Canadian Institute of Chartered Professional Accountants.

The District uses specific funds to account for its revenues and expenditures. The revenue in each fund may be spent only for the purpose specified in the fund. Each fund belongs to one of three categories: operating, capital or reserves:

- Operating funds are used for day-to-day operations.
- Capital funds pay for physical assets with a life of more than two years.
- Capital reserve funds accumulate revenue and interest that will be used to pay for capital replacement in future years.

All funds are appropriated for specific purposes as follows:

General Operating Fund – used to account for all general operating revenues and expenses of the municipality other than water and sewer operations.

Water Operating Fund – provides for all revenues and expenses related to the operation of the municipal water system. Revenues are collected through water billing based on volume of water consumed.

Sewer Operating Fund – community sewage disposal system revenues and expenses are accounted for separately in this fund. Revenues are primarily recovered from consumption based utility billings.

General, Water and Sewer Capital Fund (Capital Programs) – used to account for all capital expenditures.

Statutory Reserve Fund – used to account for all statutory reserve revenues and transfers.

Financial Policies and Plans

Sustainable Purchasing Policy Summary

The authority to make purchasing decisions and to bind the Corporation contractually rests with Council unless delegated by bylaw. The District's Delegated of Authority Bylaw No. 2060, 2020 delegates authority to specific staff within limits.

The District's Purchasing Policy sets out purchasing limits and processes for staff. Additionally, the policy outlines procedures for asset disposal.

Reserves and Surplus Policy

The Community Charter empowers Council to establish, by Bylaw, reserve funds. These reserve funds may not be spent except for the specified reserve fund purposes, as outlined by the Bylaw. Use of funds is authorized via the annual Financial Plan Bylaw. In late 2019, Council adopted the Reserves and Surplus Policy that identifies the guiding principles, objectives, and identifies reserve funds (by Bylaw) and reserve accounts (by policy or practice).

Operating surplus, operating reserves, and statutory reserves are identified in the Policy with minimum and optimal levels, funding source, and rationale.

For more information on fund balances please see the 2026 Financial Plan Reserves Forecast and Scorecard on page 106.

Investment Policy

In 2017 Council adopted the District's Investment Policy, wherein section 183 of the Community Charter lists the security types the District may invest in. These include:

1. Securities of the Municipal Finance Authority (MFA)
2. Pooled investment funds under Section 16 of the Municipal Finance Authority Act
3. Securities of Canada or of a province
4. Securities guaranteed for principal and interest by Canada or by a province
5. Securities of a municipality, regional district, or greater board
6. Investments guaranteed by a Chartered bank
7. Deposits in a savings institution or non-equity membership shares of a credit union. The Policy identifies primary objects and care as follows:

Objects and Principals

1. Preservation of Capital
2. Liquidity
3. Return on investment
4. Socially Responsible Investing

Standard of Care

1. Prudence
2. Ethics and Conflict of Interest
3. Delegation of Authority
4. Competitive Bids

Asset Management Plan and Long-Term Financial Strategy

In 2022, Council adopted a five-year update of the District's Asset Management Plan and Long-Term Financial Strategy. The plan summarizes the District's owned assets, how much they are to replace, when they need to be replaced, and how much needs to be invested in the assets. The Plan is a tool for both Council and Staff to inform long-term financial planning, decisions on funding levels, help communicate on service levels and funding, and identify areas of improvement on asset data and management processes.

The Long-Term Financial Strategy looks at current annual replacement funding compared to targeted funding levels identified in the Plan and creates a strategy to increase funding trajectory to targeted levels over time. Currently the strategies in place will reach targeted levels for general, water, and sewer funding in 2032, or a fifteen-year plan from implementation in 2017.

The Plan and Strategy create increased resiliency in the management of the District's assets and their future replacement.

Tangible Capital Assets Accounting and Reporting

In 2019 Council adopted a Tangible Capital Assets Accounting and Reporting policy to support organizational decision making, provide enhanced reporting and increased transparency to the organization, the public and other stakeholders.

The purpose of this policy is to provide direction for the recognition, recording and reporting of Tangible Capital Assets on a consistent basis in accordance with Public Sector Accounting Standards. This policy will assist the District to strategically manage, invest and plan for sustainable municipal infrastructure by:

- measuring and reporting the full cost of the District's operations;
- ensuring all tangible capital asset acquisitions are approved;
- ensuring clear guidance, training and support is provided to departments;
- supporting stewardship of the District's tangible capital assets; and by
- supporting the efficient and effective use of the District's tangible capital assets.

The Policy provides guidance on valuation, asset useful lives, and capitalization threshold by asset classification.

Expense Reimbursement Policy

In 2017 Council adopted a new Travel and Expense Reimbursement Policy. This Policy governs reimbursement for staff travel and accommodation for work-related purposes. The Policy objective is to ensure travel is appropriately authorized, care has been exercised to minimize costs, and employees are fairly reimbursed for out-of-pocket expenses.

Property Tax Exemption Policy

A Permissive Tax Exemption Policy was adopted by Council in 2022. The policy identifies Section 165 of the Community Charter as the legislation for granting exemptions, organizations that can be provided grants (nature of organization and use of the land), the annual approval process, eligibility criteria, and duration and conditions of an exemption.

In addition, the policy identifies the maximum total of current year exemptions that can be approved for the subsequent year, as not to exceed 1.5% of the current year's total budgeted property tax requisition. In the case where the total calculated permissive exemption values for the subsequent year exceed 1.5% of the current year's tax requisition, all permissive exemptions would be proportionately reduced.

Grant in Aid Policy

A Grant in Aid Program Policy has been in place since 1991 and was last updated in 2019. The Policy's criteria can be summarized as follows:

- Section 263(1) (c) of the Local Government Act allows local governments to provide assistance for the purpose of benefitting the community;
- The program is for modest community grant funding of up to \$1,000 to eligible non-profit societies and other community organizations benefitting the municipality;
- The program is specifically intended for seed funding to help establish new programs or complete special projects, and not to fund expenses such as general operations, administration, competitions, travel or building maintenance projects.
- All grants are subject to the availability of funding within the current annual operating budget.

Budget Bylaw
